Trending Road Safety Market Trend

Technological innovations are the key trend gaining popularity in the road safety market. Major companies operating in the road safety global market are coming up with new technology to solve complex and new road safety issues and improve already existing solutions being implemented in road safety. For instance, in February 2021, Motorola Solutions Inc., a US-based video equipment and telecommunications company that provides road safety solutions introduced a video-as-a-Service solution. It combines body-worn cameras, cloud-based support, and digital evidence management software in the new package for law enforcement organizations. The V300 body-worn camera, a mounting kit, an extra battery, and access to digital evidence management are all included in the body-worn camera as-a-service package. The company's product line was expanded by the new item.
