

Lactose Free Dairy Products Market to Reach \$18.2 billion by 2026 : IndustryARC

The increase in the adoption of hazelnut milk among young consumers is driving the Milk segment. However, the undesirable taste of lactose-free dairy products.

HYDERABAD, TELANGANA, INDIA, February 13, 2023 /EINPresswire.com/ -- IndustryARC, in its latest report, predicts that The [Lactose Free Dairy Products Market](#) based on the Product

Type can be further segmented into Milk, Ice-Cream, Yoghurt, Processed Milk Products, and Others. The Milk segment held the largest share owing to the factors such as the increase in the adoption of hazelnut milk among young consumers and the growing demand for lactose-free milk products among lactose-intolerance consumers. The rise in the product launches of lactose-free milk products by the key players is driving the growth of the Lactose Free Dairy Products Market. The Yoghurt segment is estimated to be the fastest-growing segment with a CAGR of 7.3% over the period 2021-2026. This growth is owing to the factors such as the growing demand for lactose-free soya yoghurts and the increasing awareness about the health benefits of lactose-free yoghurt products.
