

Green World Renewable Energy LLC Launches Innovative Solar Panel and Combiner Box at ISNA, Solar+Storage Exhibition 2023

On February 14, 2023, at the ISNA Exhibition, GWRE will introduce its newest solar panel and combiner box products, which have greater durability & efficiency.

BALTIMORE, MARYLAND, UNITED STATES, February 13, 2023 /EINPresswire.com/ -- [Green World Renewable Energy LLC](#), a leading [Solar Permit](#) Designing & PE Stamping service provider across USA, is proud to

“

We're excited to bring this new solar panel product to market. Our new solar panel and combiner box system represents a major step forward in the development of renewable energy technologies ”

Arjun Pathria

announce the launch of a new and innovative solar panel and combiner box system on 14 Feb 2023 at ISNA Exhibition, Long Beach, CA. These solar energy product provides a reliable and efficient solution for harnessing the power of the sun. This system is designed to meet the growing demand for renewable energy sources and provides a clean, cost-effective, and sustainable alternative to traditional energy sources.

The BLACK MONOCRYSTALLINE CSPL 380-400W solar panel is made of high-quality, durable materials and features

advanced photovoltaic technology that efficiently converts sunlight into electricity. The panels are easy to install and are ideal for residential, commercial, and industrial applications. They are also high PID-resistant and can withstand extreme temperatures as well wind load upto 2400 Pa & snow load upto 5400 Pa, ensuring reliable performance and longevity.

The combiner box is an integral component of the system that helps to manage and optimize the power generated by the solar panels. It combines the output from multiple panels into a single stream, making it easier to manage and monitor the overall system performance. The combiner box is designed with safety and reliability in mind, and features advanced protection mechanisms to prevent overloading and short-circuits.

The new solar panel and combiner box system is available for purchase at ISNA Exhibition 2023. To learn more about this innovative solution, please visit us at Booth No 1913.

The poster features the Green World Renewable Energy logo at the top, with the tagline 'Clean, Safe, Renewable'. Below this, the 'inter solar NORTH AMERICA' logo is displayed alongside a map of North America and the text 'ENERGY STORAGE NORTH AMERICA'. The main title 'EXHIBITION 2023' is prominently shown, followed by 'SOLAR PERMIT DESIGNING WITH GWRE'. A descriptive sentence reads: 'We are excited to welcome you & showcase our new product, The Solar Panel and Combiner Box.' The central image shows a black and white combiner box and two blue solar panels. The booth location is specified as 'BOOTH NO 1913 LONG BEACH, CA'. At the bottom left, a calendar icon indicates the dates 'FEBRUARY 14-16'. At the bottom right, it says 'More Information : www.greenworld-energy.com'. The entire poster is set against a background of a solar farm under a blue sky.
