

Wand launches Magic Wand

Wand AI Introduces Magic Wand: A Breakthrough Solution for Augmenting Data Using Generative AI and Large Language Models.

TEL AVIV, ISRAEL, February 13, 2023 /EINPresswire.com/ -- Wand AI Introduces Magic Wand: A Breakthrough Solution for Augmenting Data Using Generative AI and Large Language Models.

Wand AI has just launched Magic Wand, an innovative and game-changing technology that harnesses the power of Generative AI and Large Language Models to transform data analysis. Magic Wand allows enterprises to perform advanced transformations on both textual and categorical data in seconds, making data analysis quicker and easier than ever before.

With Magic Wand, businesses can now instantly apply transformations to large datasets, consisting of hundreds of millions of cells, streamlining processes that previously took months to complete. Furthermore, as Wand AI is an end-to-end AI platform, meaning the same transformations can be applied in real-time, making data analysis more efficient and effective.

"The capabilities of Magic Wand have the potential to revolutionize the way enterprises work with data in the years to come," said Rotem Alaluf, CEO of Wand AI.
