USGrants.org updates its affiliate program to improve the program offering for its affiliate marketers and partners

SACRAMENTO, CALIFORNIA, UNITED STATES, February 13, 2023 /EINPresswire.com/ --

USGrants.org has updated its [affiliate program](#) to improve the program offering for its affiliate marketers and partners by increasing the length the web application is tracking user activities in order to track commissions.

"When you promote USGrants.org through your unique URL provided, people who visit our website through your unique URL will be tracked and associated with your account. As they sign up for free accounts, create grant proposals, and pay for submission to private funding organizations and investors, you will earn a commission for all qualified transactions. These accounts will be associated with your account permanently, so you will earn a commission even when they file proposals a year down the road." - said Aaron, VP of Business Development. "However, even if they don't create accounts right away, our web application will now track them for up to 90 days."

"This is a result of the collaboration between our affiliate partners," said Aaron. "We take feedback from our partners seriously and we are constantly working hard to improve our program and offering."
