

Snap Tech IT Receives SOC 2 Type II Attestation

Independent Audit Verifies Snap Tech IT's Internal Controls and Processes

TEMPE, AZ, UNITED STATES, February 13, 2023 /EINPresswire.com/ -- [Snap Tech IT](#), a managed services & cybersecurity provider, today announced that it has completed its SOC 2 Type II audit, performed by [KirkpatrickPrice](#). This attestation provides evidence that Snap Tech IT has a strong commitment to security and to delivering high-quality services to its clients by demonstrating that they have the necessary internal controls and processes in place.

A [SOC 2 audit](#) provides an independent, third-party validation that a service organization's information security practices meet industry standards stipulated by the AICPA. During the audit, a service organization's non-financial reporting controls as they relate to security, availability, processing integrity, confidentiality, and privacy of a system are tested. The SOC 2 report delivered by KirkpatrickPrice verifies the suitability of the design and operating effectiveness of Snap Tech IT's controls to meet the standards for these criteria.

SOC 2 Type II certified since 2014, Snap Tech IT annually invests in protecting client data with the most stringent compliance audits.

"The nature of our business dictates that we take the necessary steps to ensure, not only the most secure internal controls & processes to protect ourselves, but to protect sensitive data our clients have entrusted with us. We annually invest time, money, and resources in our third-party SOC 2 Type II audits to provide accountability and reassurance to our clients that we are constantly monitoring and testing control and processes that directly affect their business. We wouldn't have it any other way," said Shawn Brown, COO, Snap Tech IT.

“The SOC 2 audit is based on the Trust Services Criteria,” said Joseph Kirkpatrick, President of KirkpatrickPrice. “Snap Tech IT delivers trust-based services to their clients, and by communicating the results of this audit, their clients can be assured of their reliance on Snap Tech IT’s controls.”

About Snap Tech IT
