

Eric Byres Inducted into Industrial Cyber 2023 Hall of Fame

Industry veteran focused on increasing software supply chain visibility

VICTORIA, BC, CANADA, February 14, 2023 /EINPresswire.com/ -- [aDolus Technology Inc.](#), a leading provider of software supply chain visibility for critical infrastructure, today announced

that founder and CTO Eric Byres, P.Eng, ISA Fellow, has been inducted into media company Industrial Cyber's 2023 Hall of Fame.

“

My current obsession — bringing visibility to the software supply chain — is benefitting from all the great people who have stepped into this exciting field.”

Eric Byres, CTO aDolus Technology Inc.

This is the second year Industrial Cyber has conducted this reader-driven poll to nominate outstanding veterans in industrial cybersecurity. The 2022 honor went to Rob Lee, CEO of Dragos. The series features in-depth interviews exploring the recipients' origins and future visions for the industry.

“Beyond the obvious personal honor, I'm excited about the

growing profile of cybersecurity for critical industrial environments and the fact that a hall of fame even exists!” says Byres. “In my early days getting Tofino launched, ours was a tiny community and practitioners were thin on the ground. Twenty years later, we're seeing an explosion of interest and awareness in ICS cybersecurity. My current obsession — bringing visibility to the software supply chain — is benefitting from all the great people who have stepped into this exciting field.”
