

Thermal Spray Coating Market is Booming Worldwide at Significant Growth, 2027 | KCC CORPORATION, APS MATERIAL, COORSTEK

Thermal spray coating market size is projected to reach \$12.7 billion by 2027, growing at a CAGR of 5.9% from 2020 to 2027

OREGON, PORTLAND, UNITED STATES, February 15, 2023 /EINPresswire.com/ -- According to the report published by Allied Market Research, the [thermal Spray Coating Market](#) by Material (Ceramics, Metal & Alloys and Other), Process (Flame Spraying, Arc Spraying, Plasma Spraying, HVOF and Others)

and End-Use Industry (Automotive, Aerospace, Industrial and Others): Opportunity Analysis and Industry Forecast, 2020-2027. The global thermal spray coating industry generated \$8.0 billion in 2019, and is projected to reach \$12.7 billion by 2027, witnessing a CAGR of 5.9% from 2020 to 2027. The report provides a detailed analysis of changing market dynamics, top segments, key investment pockets, competitive scenario, value chain, and regional scenario.

Rise in demand for automobiles, increase in aerospace application, and surge in usage of medical devices drive the growth of the global thermal spray coating market. However, issues regarding thermal spray process reliability and consistency and high energy costs for manufacturing technical ceramics hinder the market growth. On the other hand, advancement in filler plasma spray coating practices present new opportunities in the coming years.

Leading players of the global thermal spray coating market analyzed in the report include M, A&A Thermal Spray Coatings, Inc., APS Materials, Inc., CoorsTek, Inc., Dupont De Nemours, Inc., Integrated Global Services, Inc., KCC Corporation (KCC), Linde Plc and Morgan Advanced Materials plc.

Thermal Spray Coating Market Growth

Covid-19 Scenario:

The covid-19 outbreak negatively impacted the [thermal spray coatings industry](#). The prolonged lockdowns have impacted the manufacturing activities and led to supply chain disruptions.□

The demand from the end-using industries including construction, automotive, and industrial sectors has declined as well. In addition, reduced labor, due to social distancing norms, amid the COVID-19 pandemic has further impacted the market.

Nevertheless, the regulations are getting eased off and the industries are getting revitalized. With this, the thermal spray coating market is expected to recoup soon.

The report offers detailed segmentation of the global thermal spray coating market based on material, process, end-use industry and region.

Based on material, the metal & alloys and ceramics segment held the largest share in 2019, accounting for nearly half of the global thermal spray coatings market. Furthermore, the metal & alloys segment is also expected to witness the highest CAGR of 6.3% throughout the forecast period.

Have Any Query? Ask Our Expert : <https://www.alliedmarketresearch.com/purchase-enquiry/5849>

Based on process, the flame spraying segment dominated the market in 2019, contributing nearly three-fifths of the global thermal spray coatings industry. The segment is expected to lead the trail throughout the forecast period. On the other hand, the plasma spraying segment is projected to portray the highest CAGR of 11.2% during the study period.

The global thermal spray coatings market is studied across Asia-Pacific, Europe, ALMEA, and North America. The □Asia-Pacific□ region held the largest share in 2019, contributing to more than half of the market. Moreover, the region is also expected to register the □highest CAGR□ of 6.3% during the forecast period.
