healthcare industry, starting as a medical assistant before becoming a practice administrator.

CHCs are non-profit organizations that receive federal funding to provide comprehensive primary care and preventive health services to underserved communities, irrespective of patients' ability to pay or insurance status.

To maintain their funding and continue to provide quality care to their patients, CHCs must ensure they comply with strict reporting requirements from the Health Resources and Services Administration, Centers for Medicare and

Medicaid Services, state health departments, and the Bureau of Primary Health Care.

"Viewgol shares many core values with RHCs, FQHCs, and Tribal Health organizations that serve indigenous communities," said Sexton. "I am drawn to and excited to join Viewgol because we share a vision to care for patients through caring for the financial health of healthcare organizations. The talent level at Viewgol is unmatched. I'm thrilled to join this high-caliber team where I can learn and grow."
