Trending Data Backup And Recovery Market Trend

Technological advancement is a key trend gaining popularity in the data backup and recovery market. Major data backup and recovery companies are advancing in their new technologies and research and development to adopt efficient alternatives such as multi-cloud data backup and recovery. Data can be backed up across many cloud services from different providers using multi-cloud data backup and recovery systems. These systems frequently copy backups from one service to another and store them there for disaster recovery. These solutions ought to allow recovery from many sources, ideally. For instance, in June 2022, Backblaze, Inc., a US-based cloud storage and data backup company, partnered with Veritas Technologies LLC. to offer multi-cloud data backup and recovery. Customers who use Backup Exec to synchronise their data backup and recovery procedures can use their combined solution's simple, inexpensive, and S3-compatible object storage. The Backup Exec service from Veritas enables companies to safeguard almost any data on any storage medium, including tape, servers, and the cloud. Veritas Technologies LLC is a US-based data management company.

Data Backup And Recovery Market Segments

- By Backup Type: Service Backup, Media Storage Backup, Email Backup
- By Component: Software, Services
- By Deployment Type: Cloud, On-Premises
- By Industry Vertical: IT and Telecommunications, Retail, Banking, Financial Services, and Insurance, Government and Public Sector, Healthcare, Media and Entertainment, Manufacturing, Education, and Other Industry Verticals
- By Geography: The global data backup and recovery market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
