Trending Downhole Tools Market Trend

Technological innovation is the key trend gaining popularity in the downhole tools market. Major

companies operating in the downhole tools market are focused on developing new and innovative products to sustain and strengthen their market position. For instance, in May 2020, Ace Oil Tools, a Norway-based downhole technology company launched a new Ace Splice Clamp, a sub-less downhole product that protects the control lines during completion. The Ace Splice Clamp accommodates a flat-pack control line assembly and combines the functionality of a shrouded crimp clamp for fastening flatpacks with a splice sub into a single device. Because the ASC takes a "one design fits all" approach, operators can employ different vendors to get the different items they need while still using the ASC to store all possible combinations. On damp and dry trees, the ASC can be applied above tube hangers as well as below them. The Annulus Safety Valve, Downhole Safety Valves, Interval Control Valves, packers, and more can all be deployed underneath it.

Downhole Tools Market Segments

- By Type: Drilling Tools, Pressure and Flow Control Tools, Handling Tools, Impurity Control Tools, Other Types
- By Location: Onshore, Offshore
- By Application: Well Drilling, Well Completion, Well Intervention, Well Production, Formation and Evaluation
- By Geography: The global downhole tools market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
