[Trending Cold Pressed Oil Market Trend](#)

The development of innovative processes have emerged as a key trend gaining popularity in the cold-pressed oil market. Major companies operating in the cold-pressed oil market are focused on developing new technological solutions to strengthen their position. For instance, In April 2022, Botanic Innovations, a U.S.-based producer of highly specialized oils and powders from some of the most nutritious plants in the world, launched the NatureFRESH Cold Press Process, a naturally gentle and sustainable process. All of their seed oils and powders are extracted using this gentle, all-natural process. The NatureFRESH Cold Press processes the yields of seed oils in their purest form—no chemicals, no solvents, and no preservatives. Cool processing temperatures help to preserve the natural characteristics and powerful nutritional benefits of the seeds.

Cold-pressed oil refers to a method of oil extraction where the oilseeds are crushed and pressed to extract oil. The entire process involves pressure and no heat and that is what makes the oil healthier than any other form. Cold-pressed oils are extracted from oilseeds including sunflower, canola, coconut, sesame seed, or olive without applying heat. The cold press method involves crushing the seeds or nuts and forcing out the oil through pressure.

Cold Pressed Oil Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
