Specialty PACS, or Specialty Picture Archiving and Communication System, is a type of medical imaging software designed for specific medical specialties or subspecialties, such as cardiology, radiology, orthopedics, and dentistry. Specialty PACS usually integrate with other medical systems, such as Electronic Health Records (EHRs) and Radiology Information Systems (RIS), to streamline workflows and facilitate communication between medical professionals. The software allows medical professionals to securely store, access, and share medical images and reports, which can improve patient care and enhance collaboration among healthcare providers.
