ESTONIA, February 18, 2023

[/EINPresswire.com/](https://EINPresswire.com/) -- Totem Solutions, in Collaboration with the C6ISTAR.IO Alliance, Aims to Bridge the Gap Between Suppliers and Clients in Latin America and Spanish speaking countries.

The future of warfare is likely to focus less on firepower and more on the power of information and the way it connects a military's forces through the concepts of command, control, communications, computers, cyber, combat systems, intelligence, surveillance, target acquisition,

Elements that make up the C6ISTAR Alliance:

- Non-Kinetic military action
- Social Engineering
- Misinformation, Disinformation, Malinformation
- Cyberattacks
