

ÉLITER Packaging Machinery Introduces their New Continuous Motion Cartoner Machine

CRESCENDO CARTONER is a continuous motion end-load cartoning machine with smart loader system and capable of producing 200 cartons per minute.

RUIAN OF WENZHOU, ZHEJIANG, CHINA, February 19, 2023

/EINPresswire.com/ -- While

intermittent cartoning machine is not capable of reaching a speed beyond 150 cartons per minute and a continuous motion cartoner is able to deliver that performance however the budget rockets.

“HAVE EVER THOUGH THAT WHETHER THERE IS SUCH KIND OF CARTONING MACHINE THAT FILLS THE GAP?”

The [Crescendo Cartoner](#) presented by [ÉLITER Packaging Machinery](#) is installed with a patented smart system of servo-driven synchronous tracking loaders. This is an insertion system with cutting-edge technology that outstrips all the cartoning machines offered on the market in China.

The system replaces the complex barrel cam loaders on a traditional continuous cartoning machine so as to keep the budget affordable while delivering the same level of performance in terms of cartoning automation.

Advantages and Features:

- Compact and smart servo-driven synchronous tracking loader system
- Maximum Speed of 200 cartons per minute (200 CPM)
- An unprecedented CRACK between intermittent and continuous cartoning machines
- Ergonomic structure with safety design in compliance with EC standards.
- Balcony design for easy accessibility and maintenance
- Designed for application at food processing facility

New Approach to Cartoning Packaging Defined

The barrel cam loaders are built on a complex structure and drive the cost of a continuous

cartoning machine to an EXTRAVAGANT level.

With CRESCENDO Cartoner, ÉLITER Packaging Machinery defines a new approach to high-speed cartoning packaging automation.

The company has incorporated within the Crescendo Cartoner a smart loader system with advanced servo technology, which enables the precise operation of tracking and synchronization with the cartoner's bucket conveyor, named by the company the DUET 200 loading system.

“ We will debut the new model of cartoning machine in June 2023 at China Food Packaging and Processing Exhibition in Qingdao, China.”, mentioned Zhiwei Bao, the company owner.

About ÉLITER Packaging Machinery

ÉLITER Packaging Machinery is a manufacturer and global supplier of cartoner, overwrapping machine, and wrap-around sleever. To find out more information: www.eliter-packaging.com
