Trending Coffee Machines Market Trend

Smart coffee machines with Bluetooth or Wi-Fi connectivity are a key trend driving the growth of the coffee machine market. The smart coffee machines can be accessed via smartphones, and users can monitor them from anywhere in the house and can also send smartphone commands. Most coffee makers have their software to configure the brew settings and plan brew times. For instance, in July 2021, Keurig Dr. Pepper, a US-based company operating in beverage brewing systems for home and commercial use, introduced BrewID Smart Coffee Market Technology for a coffee machine that enables WiFi connectivity. Keurig's new BrewID technology can be connected to clients' smartphones to enable control over temperature, size, and auto-brew controls, for the customization of the brewery. Therefore, smart coffee machines with Bluetooth

or Wi-Fi connectivity are expected to continue this trend in the coffee machine market.
