New Book Helps Business Owners Accelerate CMMC Compliance

CMMC Compliance Requirement for DoD Contractors Coming Soon

SAN ANTONIO, TEXAS, USA, February 20, 2023 /EINPresswire.com/ -- On March 30th John Hill, CEO of TechSage Solutions, an IT and Cybersecurity services company serving small to medium sized business in San Antonio will release his new book titled [The Compliance Formula...Successful Strategies Of CMMC Compliant Companies](#). This new book describes how companies can stay compliant with cybersecurity requirements when working with the Department of Defense and will help DoD contractors ensure that their business has key practices in place, allowing them to bid on, win and take part in government contracts.

> "
> Business owners and executives alike should give this book a read and take its content seriously."
>   *Jim Lippie, CEO, SaaS Alerts*

"Cybercriminals are costing the DoD and its contractors billions each year," says John Hill, chief executive officer for TechSage Solutions. "Any company that works with the DoD must become CMMC compliant in order to stand out from competitors and avoid hefty fines."

This book will reveal to department of defense contractors exactly how to make sure their business is fully compliant with CMMC standards, and help them understand if it isn't.

DoD contractors will also learn the six-step process to successfully weave CMMC compliance into their workplace culture.
