

# Introducing the HoldOn EyeCare Clip, Japan's Latest Buzz for Tackling Poor Posture and Nearsightedness

*The Japanese-made HoldOn EyeCare Clip is the ultimate gadget for a posture-friendly lifestyle and healthy eyes.*

NISHISHINJUKU, TOKYO, JAPAN, February 24, 2023 /EINPresswire.com/ -- With its ground-breaking [HoldOn EyeCare Clip](#) product, Tokyo-based tech firm [ClearElectron](#) Co., Ltd. has captivated Japan. This innovative gadget, which was created to aid users in maintaining a healthy posture and halt the development of nearsightedness, has been making headlines in the Japanese media and generating interest among the public.

The HoldOn [EyeCare Clip](#) attaches to your existing prescription or non-prescription eyewear. It incorporates AI in the form of sensors that detect the user's posture, lighting conditions, and proximity to electronic devices. This data is then collected and analyzed in an accompanying app, allowing the user to track their habits and work towards better eye and posture health. It interacts with your smartphone via Bluetooth. It vibrates to let you know when you are too close to the screen, your posture is poor, or the lighting is too dim. You can also use it to keep track of how much time you spend using electronics. As a result? fewer cases of myopia developing, less eye strain, better posture, and a general improvement in quality of life.

Major news and variety TV programs like "ZIP!," "DODESUKA!" and "WBS" have all highlighted the HoldOn EyeCare Clip. It has also received praise from influential Japanese publications like "ESSE" and "TARZAN," and it has earned the prestigious ReseMom Editors' Choice 2022 award. This honor is given to businesses that offer programs and services that help children have a

better future, and the product is chosen by the editing team at ReseMon.

The HoldOn EyeCare Clip is available for purchase at ClearElectron's "MenoMemo" retail location in Japan, along with other items that promote excellent eye health. Even children's games that evaluate the health of their eyes are available in the store. In order to raise public knowledge of good eye health and a lifestyle that promotes good posture, ClearElectron is taking the world by storm and is now making the HoldOn EyeCare Clip available to everyone with their new global website. Their commitment to expanding their product line worldwide is just getting started. The HoldOn EyeCare Clip will be on display for the first time in the United States at Vision Expo East in New York from March 17-19, 2023, at stand #PAN 2144.

MenoMemo. ClearElectron's first retail store in Japan. Located at Aqua City Odaiba.

“

In order to raise public knowledge of good eye health and a lifestyle that promotes good posture, ClearElectron intends to expand its product line worldwide.”
