The interface of AVG AntiVirus Free is modern, touch-friendly, and very straightforward to use. Testers liked the informative malware detection alerts, which let you manage multiple detections from a single alert box, and persist until closed by the user. The setup wizard provides the choice of a simple, one-click installation for non-experts, or a fully customisable installation for power users. There is a good range of scan options, and on-access protection means that files are scanned for malware after copying them to the PC.

"Given the rise in cyber threats year over year, consistent testing is important to ensure products can reliably protect people against attacks. Gen's security solutions Avast and AVG perform well each year, which is evidenced by their high rankings," said Andreas Clementi, founder and CEO of AV-Comparatives.

Like all [AV-Comparatives'](https://www.av-comparatives.org/) public test reports, the AV-Comparatives Awards 2022 report is available for free: <https://www.av-comparatives.org/av-comparatives-awards-2022-for-AVG/>

AV-Comparatives' [tests](#) are very carefully designed and executed to thoroughly and realistically simulate scenarios that face users in real life. Consequently, a certification by AV-Comparatives is a guarantee of an effective and reliable

product. An "Approved Product" award means that the software has been rigorously checked to

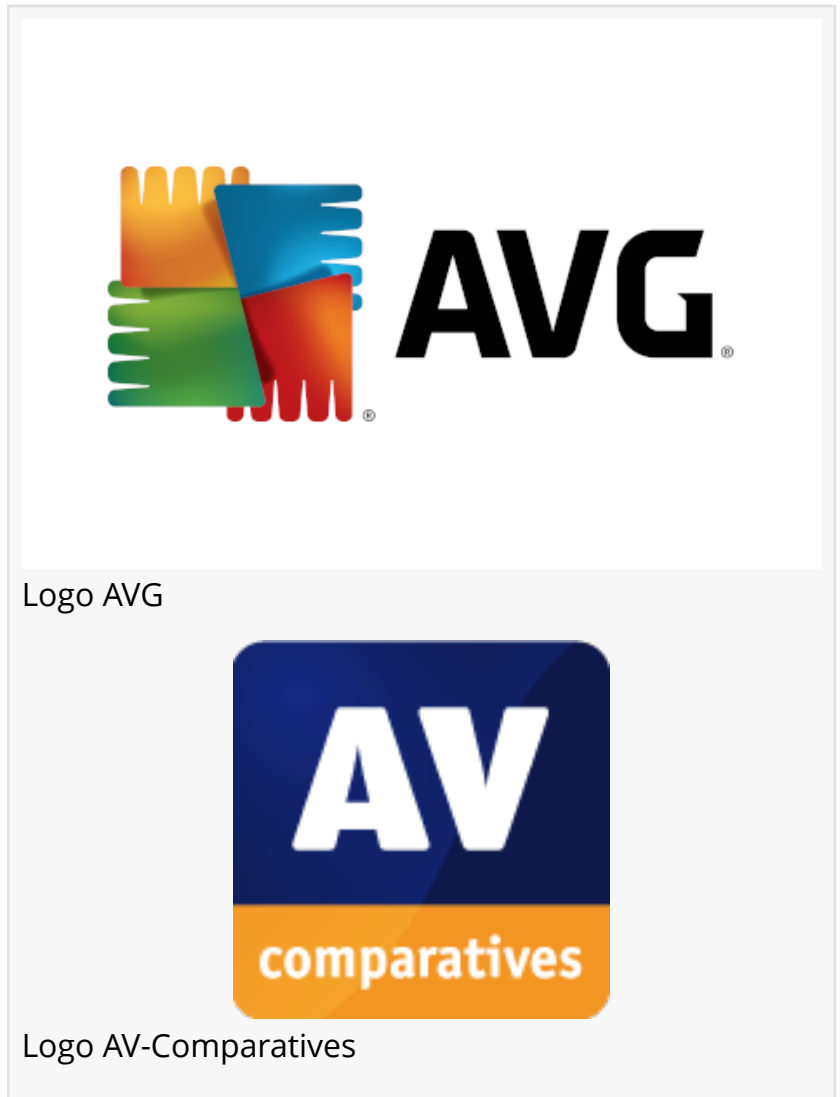

AVG Top-Rated Security Product Trophy 2022

ensure that it will perform its intended task competently. It is an industry-recognised standard of quality.

AV-Comparatives' tests have multiple aspects, to represent the different requirements of IT security solutions. Further awards highlight the effectiveness of individual programs in different protection scenarios, low false positives, and low impact on system performance. Users can thus see which programs score highly in the categories that matter most to them.

AV-Comparatives is an independent testing lab based in Innsbruck, Austria, that tests IT security products to see if they live up to their promises. AV-Comparatives is ISO 9001:2015 certified, having received a certificate from TÜV Austria for the scope "Independent Tests of Anti-Virus Software". AV-Comparatives is also the first av-test organisation to be certified by European Expert Group for IT-Security (EICAR) as an EICAR Trusted IT-Security Testing Lab.

AVG had a very successful year in AV-Comparatives' consumer tests of 2022. For the Consumer Main-Test Series, it was given a Top-Rated Product Award. It reached the highest Advanced+ level in six of the tests, and Advanced in the remaining test. It also took Silver Awards for the Real-World Protection Test and Malware Protection Test.

Additionally, AVG received an Approved Mobile Security Product certification, an Approved Mac Security Product certification and an Approved Anti-Phishing Product certification.
