In order to rise in prevalence of veterinary disease The animals are playing important aspect in terms of clinical trials. Veterinary contract research organizations services protect and improve the health, efficiency and marketability of the livestock, animal products and veterinary biologics of our nation by preventing, regulating or removing animal diseases, and by tracking and promoting animal health and productivity.

For instance, in between January - April 2015, disease reports in North and West Africa, Middle East and African region, primarily included an upsurges of Foot and Mouth Disease (FMD) and H5N1 highly pathogenic avian influenza (HPAI) raising a global economic concerns. Disease like Lumpy Skin Disease (LSD), Foot-and-Mouth Disease, Hemorrhagic Septicemia, Black Quarter, Zoonotic disease events are leading to death of the animals, for the wellbeing of animals the veterinary CROs are taking steps for the clinical trial steps for the veterinary medicines. Thus, the increasing in incidence of veterinary diseases leading to drive the growth of veterinary CRO market.
