

Lensbaby Unveils Double Glass II Optic with Enhanced Features for Creative Photography

Lensbaby announces the release of its new and improved Double Glass II optic, compatible with all current and legacy Optic Swap lens bodies.

PORTLAND, OR, USA, February 23, 2023

/EINPresswire.com/ -- Lensbaby, a

leading manufacturer of innovative creative camera lenses and

accessories, announced the release of

its new and improved Double Glass II optic, compatible with all current and

legacy Optic Swap lens bodies. The Double Glass II is a significant upgrade

from the original Double Glass optic,

offering a range of enhanced features that provide unparalleled creative control for creators of still and video imagery.

in uncommon ways.

The Double Glass II's solid, all-metal construction, matches the build quality of the Composer Pro II lens body. Unlike the Double Glass optic, released in 2008, this optic includes a 12-blade manually adjustable internal aperture, providing perfectly round aperture settings for quick and

easy control over the sweet spot size, dramatically affecting the look and feel of the final image.

The Double Glass II optic is compatible with all Optic Swap macro accessories, including Lensbaby's 46mm Macro Filter Kit and Macro Converters, making it the perfect tool for photographers who want to capture stunning macro images.

"We're thrilled to introduce the Double Glass II to our Optic Swap System," said Craig Strong, Lensbaby's co-founder, and Chief Creative Officer. "With its dual aperture system and all-metal construction, this optic brings the very best of creative [photography](#) in a single, unique lens. Visual artists everywhere will soon be creating magic with this versatile new photographic tool."

The Double Glass II Optic will be available for purchase starting Feb 23rd, 2023, on the Lensbaby website and through authorized dealers worldwide.
