

Biodegradable Dressings Market Size To Hit US\$ 305.2 Million By 2032, Key Players - Aegis Lifesciences, Medtronic

*Biodegradable Dressings Market
Segmented By Polyvinyl Alcohol (PVA)
Foam, Hyaluronic Acid, Carboxymethyl
Cellulose, Fibrin Glue, Microporous
Polysaccharide*

NEW YORK CITY, NEW YORK , UNITED STATES, February 23, 2023
/EINPresswire.com/ -- The global [Biodegradable Dressings Market](#) is currently valued at around US\$ 204.1 Million in 2022. The market is projected to reach US\$ 305.2 million by the end of 2032, growing at a CAGR of 3.7% during the forecast period. The U.S., Germany, Japan, and Australia account for most demand for biodegradable dressing market, currently holding around 48.1% market share.

The U.S. accounts for around 91.2% share of the North American market in 2022. Australia accounts for around 80.8% share of the global market in 2022. Germany held around 25.2% market share of the Europe biodegradable dressings market in 2022. The Japan market held a share of about 32.9% in the East Asia biodegradable dressings market in 2022.

The market for biodegradable dressings is propelled by a number of factors, including rising environmental consciousness, rising demand for sustainable products, and technological improvements. Materials including collagen, chitosan, cellulose, alginate, and gelatin, which are all organic and biocompatible, are used to make biodegradable dressings. Microorganisms naturally degrade these materials, making them sustainable and eco-friendly.

The demand for biodegradable dressings is also being driven by the increasing prevalence of chronic wounds, such as diabetic foot ulcers, pressure ulcers, and venous leg ulcers. These types of wounds require long-term treatment and can be difficult to manage with traditional dressings. Biodegradable dressings can provide a moist wound environment that promotes healing and reduces the risk of infection.

Key players in the market include:

- Aegis Lifesciences Pvt Ltd.
- Medtronic
- Datt Mediproducts Pvt Ltd.
- Stryker
- Huizhou Foryou Medical Devices Co, Ltd
- BenQ Materials Corp
- EON Meditech Pvt Ltd
- Divine Medicure Technology
- Axio Biosolutions Pvt. Ltd.
- Cenefom Corp.
- Smith – Nephew
- Baxter
- Reliance Life Sciences
- Hangzhou Singclean Medical Product Co. Ltd.

The cost-effectiveness of biodegradable dressings is also a major factor in their growing popularity. Traditional wound dressings can be expensive, especially for long-term use. Biodegradable dressings, on the other hand, are relatively inexpensive and can be disposed of safely without harming the environment.

Biodegradable dressing manufacturers are actively looking to improve their position through partnerships, mergers and acquisitions, alliances, and agreements with both existing and up-and-coming industry players.

Product launches, technological developments, and acquisitions accelerate manufacturers' aim to grow their market share.

Key product launches include:

- The WEREWOLF FASTSEAL 6.0 Haemostasis Wand for orthopaedist in recon business, was introduced by Smith & Nephew. The product help shorten process times and minimise blood loss by radio frequency technology.
- U.S. patent was granted to velNez, Datt Mediproduct's recent biodegradable and

biocompatible nasal dressing.

- Procedures Stealth Station ENT was introduced in ENT market by Medtronic. The system utilizes specialised electromagnetic technology to track the position of the tool during an ENT operation and target anatomy.

Biodegradable Dressings Market

The biodegradable dressings market is expected to grow significantly in North America and Europe due to the high prevalence of chronic wounds in these regions. In addition, the increasing awareness of environmental issues and the adoption of sustainable practices are driving the demand for biodegradable dressings in these regions. Asia-Pacific is also expected to be a high-growth market due to the increasing demand for affordable and sustainable wound care products in emerging economies such as China and India.
