

# Policy Management Software Market Value to Gain USD 3.06 Billion in 2027

*Surge in need for faster management of procedure and policies across the industries positively impacts the growth of the market.*

PORLAND, PORTLAND, OR, UNITED STATES, February 22, 2023 /EINPresswire.com/ -- As per the report, the global [policy management software market](#) accounted for \$962.18 million in 2019, and is expected to \$3.06 billion by 2027, growing at a CAGR of 15.7% from 2020 to 2027.

Policy Management Software Market Value

Surge in adoption of policy management software by several industries, increase in need for faster management of procedure and policies across the industries, and rise in need to streamline business have boosted the growth of the global policy management software market. However, high implementation and maintenance costs and rise in security issues hinder the market growth. On the contrary, adoption of cloud-based policy management software among SMEs is expected to open lucrative opportunities for market players in the future.

By component, the solution segment held the lion's share in 2019, accounting for nearly three-fourths of the global policy management software market, due to rise in need to manage policies, procedures, and protocols across the globe. However, the service segment is expected to manifest the highest CAGR of 17.0% during the forecast period, owing to increase in adoption of services among end users, as they ensure effective functioning of policy management software.

By industry vertical, the healthcare segment is estimated to register the highest CAGR of 18.3% during the forecast period, due to rise in need to improve the operational efficiency of hospitals and achieve healthcare compliance through automated approval lifecycle management, distribution, publication, and tracking of procedures and policies. However, the BFSI segment

held the lion's share in 2019, contributing to more than one-fourth of the global policy management software market, owing to increase in the awareness of policies among the employees and providing advanced search features to their clients.
