

Flower Turbines Share Purchase Opens

Flower Turbines share purchase under Regulation A has begun at <https://www.startengine.com/offering/flowerturbines>

LAWRENCE, NY, USA, February 22, 2023 /EINPresswire.com/ -- [Flower Turbines](https://www.startengine.com/offering/flowerturbines) share purchase under Regulation A equity crowdfunding has begun at <https://www.startengine.com/offering/flowerturbines>.

Two of Flower Turbines' previous raises were sold out.

A link for signing up for investor updates is at <https://www.flowerturbines.com/investment-signup>

[Products](https://www.flowerturbines.com/shop) can be bought at <https://www.flowerturbines.com/shop>.

Those in the EU can buy by quotation from their staff at

support.eu@flowerturbines.com

Outside of those areas, contact support.us@flowerturbines.com for a custom quotation.

The graphic features a large orange circle with a white flower turbine logo at the top. Inside the circle, the text reads "Flower Turbines' Reg A+ equity crowdfunding raise is LIVE!". To the left of the circle is a blue megaphone icon. Below the circle is a dark blue banner with the words "IMPORTANT ANNOUNCEMENT" in white. In the bottom right corner of the circle is a small "start engine" logo. The background of the graphic has a pattern of orange dots.

Opening Announcement 2023

A photograph showing a row of six flower turbines in a factory setting. The turbines are green and red, mounted on white bases. Several people are standing in front of the turbines for scale. The background shows the interior of a large industrial building.

Flower Turbines Panorama

Flower Turbines is a US company with an important branch in the EU that has the goal of making small wind as powerful a force in renewable energy as solar by using its multiple patents to create a wind turbine that meets all the needs of urban and suburban environments. It combines aerodynamic innovations with beautiful design, low noise, and bird friendliness. Unlike other turbines, they make each other perform better when tightly packed together.

[Technology](#) being developed by Flower Turbines enables a new model in the small wind industry. Focused on creating beautiful, affordable, and efficient turbines for the urban/suburban market and tight spaces, it seeks to pave the way for the future of distributed energy, particularly with

solar. Its “Cluster Effect” (whereby their turbines perform better when tightly packed together as opposed to the most common turbines which perform worse when tightly packed) could give them a key advantage to scaling farms of small wind turbines and harnessing the electricity they produce.

“We have the ambition to become a major global force in distributed energy,” said CEO Dr. Daniel Farb. “We believe we have the technology and enthusiasm to accomplish it. We are in the right industry at the right time. Incentives for an energy transition in most important areas of the world only add to our scaling up headwinds.”

Flower Turbines has external validation as a top company:

- Flower Turbines has been awarded the “Solar Impulse Efficient Solution” Label, a proof of high standards in profitability and sustainability to protect the environment. Here is a link to the page about Wind Tulips on the Solar Impulse website:

<https://solarimpulse.com/efficient-solutions/wind-tulips#>

- Flower Turbines was a winner of Pepperdine Graziado Business Schools annual Most Fundable Companies in America list. Flower Turbines was judged to be in the top 10 among 4500 startup companies examined.

- Winner of the Dutch government sustainability award for two separate years.

Disclaimer: You should read the Offering Circular (<http://alturl.com/wpfprr>) and Risks (<http://alturl.com/8hrbw>) related to this offering before investing. This Reg A+ offering is made available through StartEngine Primary, LLC, member FINRA/SIPC. This investment is speculative, illiquid, and involves a high degree of risk, including the possible loss of your entire investment.
