

# Bird Repellent Market Size is forecasted to reach \$448.3 Million by the year 2031 | Avian Enterprises, Bird B Gone, Inc.

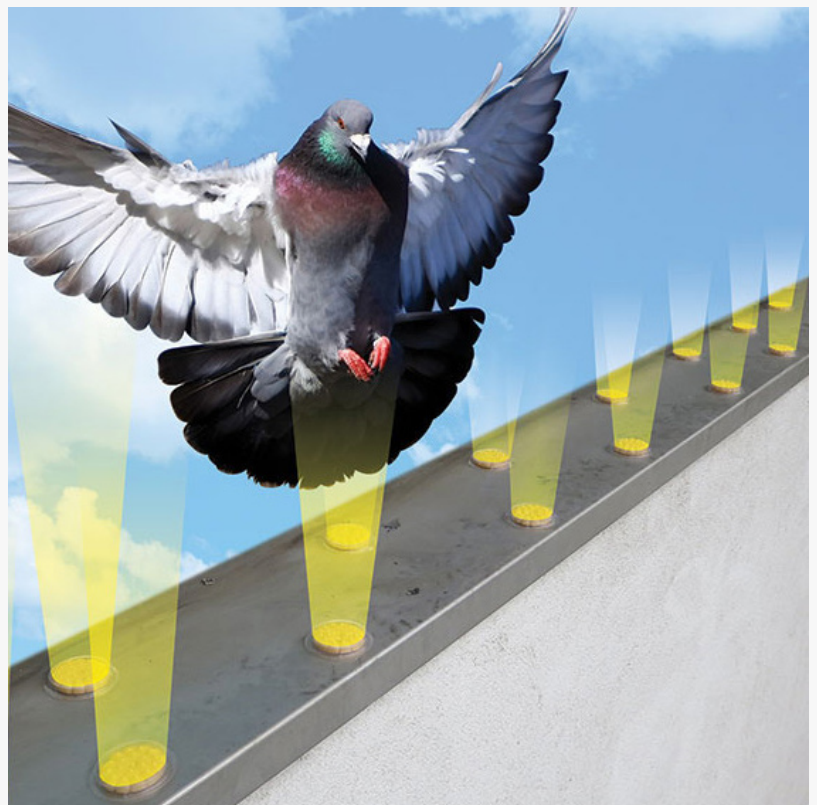

*Rising crop and fruit production damage from bird activity as well as the presence of several key market players like Bird-X, Bird B Gone*

POTLAND, 5933 NE WIN SIVERS DRIVE, #205, UNITED STATE, February 22, 2023 /EINPresswire.com/ -- According to a new report published by Allied Market Research, titled, "[Bird Repellent Market](#)," The bird repellent market size was valued at \$308.40 million in 2021, and is estimated to reach \$448.3 million by 2031, growing at a CAGR of 3.9% from 2022 to 2031.

The largest sector for using the bird repellents are agriculture and horticulture since birds significantly harm crops and fruits through invasion and infringement. The overall quality and quantity of the crops are being impacted by the increasing bird infestation on important field crops like soybean, rice, and many others, which would increase Bird Repellent Market Demand for the product among farmers who grow food.

Rising awareness of bird repellents in the agriculture & horticulture business and aviation sector in China, India, Japan, and other Southeast Asian nations, Asia Pacific is likely to witness a major growth rate during the forecast period. Because European starlings are drawn to grain and other food processing facilities and nest in gutters or other holes in buildings, which results in property damage and the spread of various infectious diseases, Europe is predicted to the major traction

Bird Repellent Market

in the market. All these are the Bird Repellent Market Trends in the market.

The outbreak of COVID-19 has severely hampered the bird repellent market growth. This is attributed to the fact that the agriculture & horticulture industry is majorly dependent on the food service sector for its revenue generation. The recent declaration regarding the shutdown of the hospitality industry, including aviation sector, and food processing industry has drastically hampered the sale of bird repellent.

The global bird repellent market is categorized into type, end use and region. By type, it is classified into electric bird repellent and non-electric bird repellent. On the basis of end use, it is fragmented into agriculture and horticulture, aviation, architecture and construction, food processing, and others. Region wise, the market is analyzed across North America (U.S., Canada, and Mexico), Europe (Germany, France, UK, Italy, Spain, Belgium, Netherland, Russia, and rest of Europe), Asia-Pacific (China, India, Japan, Australia, South Korea, Thailand, Indonesia, and rest of Asia-Pacific), and LAMEA (Brazil, Argentina, UAE, South Africa, Saudi Arabia, Chile, and Rest of LAMEA).
