

# MechCan Inc. Welcomes Kaylie Chamberlin to its Business Development Team

*MechCan's new Director, Business Development will build relationships with HVAC, plumbing and electrical companies to add to the Company's family of brands*

TORONTO, ONTARIO, CANADA, February 23, 2023 /EINPresswire.com/ -- MechCan Inc. ("MechCan") is pleased to announce the addition of Kaylie Chamberlin as its Director, Business Development. Kaylie will be responsible for building relationships with HVAC, plumbing and electrical companies to add to MechCan's family of brands. She will be initially focused on her home market of Eastern Ontario before turning her attention to the rest of the province and eventually nationwide. Kaylie can be reached at [kc@mechcan.ca](mailto:kc@mechcan.ca).

Having grown up in her family's HVAC and plumbing business, Kaylie brings to MechCan tremendous knowledge of the trade and a strong contractor network. Prior to joining MechCan, Kaylie was the Territory Manager for Eastern Ontario at Daikin North America where she was responsible for growing and maintaining Daikin's contractor relationships in the region. Before Daikin, Kaylie sold equipment "at the kitchen table" as a Residential Sales Consultant for Francis Home Environment in Ottawa.

"I spent most of my childhood listening to and learning from conversations about the hard work required to run a profitable and successful mechanical services company. One topic that was always up for discussion, without a clear or viable solution, was what would happen to my parents's business when they were eventually ready to retire." said [Kaylie Chamberlin, MechCan's new Director, Business Development](#). "When I learned about MechCan's differentiated partnership approach, I felt inspired, knowing the impact it could have had on my parents business years ago."

"Kaylie is the perfect fit for MechCan's Business Development team because she watched her parents struggle with the succession planning problem that MechCan was created to solve." said

The MechCan logo, with "Mech" in blue and "Can" in red, featuring a white wrench icon in the "h" and a white maple leaf icon in the "a".
