

# Allied Cleanrooms Announces Step-by-step Guide to Identifying the Best Cleanroom Manufacturer for a Unique Project

*Allied Cleanrooms, a top producer of modular cleanrooms, is proud to announce continued enhancements to its blog.*

ORANGE, CALIFORNIA, UNITED STATES, February 26, 2023 /EINPresswire.com/ -- Allied

When it comes to delivering a best-in-class cleanroom, we understand how all the moving parts work."

*Kevin Peithman*

[Cleanrooms](https://alliedcleanrooms.com/), a best-in-class cleanroom supplier at <https://alliedcleanrooms.com/>, is proud to announce a new step-by-step post helping project managers to identify the best manufacturing partner for each project.

"When it comes to delivering a best-in-class cleanroom, we understand how all the moving parts work. After a consultation and agreement, we work via a step-by-step

methodology," explained Kevin Peithman, CEO. "My team knows the importance of one-on-one project management. Our engineering team works closely with the client at the earliest stages to make sure that we provide the best manufacturing experience. We also keep in touch along the way to ensure clients receive exactly what they need."

Company leaders and decision-makers can review the new post on finding a best-in-class cleanroom manufacturer at <https://alliedcleanrooms.com/choosing-the-best-cleanroom-supplier-how-do-you-find-the-right-company/>. In a step-by-step fashion, the post explains how to identify the best cleanroom manufacturer. It is a helpful way for project managers to think about the early phases.

Allied Cleanrooms provides next-generation technology in the form of prefabricated modular cleanrooms including ISO-compliant cleanrooms. Cleanrooms can be designed for specific needs including the following: environmental test chambers, organic chemistry, microbiology, and pharmaceutical research. Modular cleanrooms can also be used for the aerospace industry, microprocessing, engineering, and manufacturing. Considered one of the best cleanroom manufacturers in the USA, Allied Cleanrooms delivers a wide selection of components crucial to a specific type of ultra-hygienic air-filtered space. The company's lively blog is a first step. The second is to reach out for an in-depth project consultation with a cleanroom expert. Interested persons can also review the Allied Cleanrooms page at

<https://alliedcleanrooms.com/cleanrooms/> as well as the Allied Modular page at <https://alliedmodular.com/clean-rooms/>. Those looking for office pods and other "pods" solutions should visit <https://zonez.com/>.

## STEP-BY-STEP TO CLEANROOM SUCCESS

Here is the background on this release. The popularity of pre-manufactured cleanrooms is rising, and a US-based cleanroom manufacturer could help. Cleanrooms are designed to support specific tasks. Each type of cleanroom can vary depending upon ISO standards. Finding an expert manufacturing partner to support the building of a professional space to handle projects such as micro-processing or pharmaceutical development may overwhelm a project manager. Choosing an expert to help address the details might solve the problem. For these reasons, one of the best cleanroom manufacturers in the USA is ready to partner with company leaders.

## A USA-BASED MANUFACTURER OF CLEANROOMS

Allied Modular, the parent company of Allied Cleanrooms, has factories in California, Texas, and Tennessee and delivers modular cleanrooms across the United States and Nationally. Allied Cleanrooms provides deliverable modular cleanrooms for various technical requirements and specializes in meeting critical technical specifications such as USP 797/800 cleanrooms and ISO standard cleanrooms (e.g., ISO 4- ISO 8 cleanrooms). Cleanrooms can be used for lab work, semiconductor processing, biotech, and pharmaceutical development. The company supports the installation of additions to cleanroom systems, including fire suppression systems, air conditioning, and electrical. Active HEPA filtration systems are also available to meet the ISO standards for a specific modular space. The innovation is founded on the company's "modular" strategy.
