

TEKTELIC is Launching eBEAT – A Groundbreaking Wearable Device for Continuous Health Monitoring

CALGARY, ALBERTA, CANADA, February 24, 2023 /EINPresswire.com/ -- [TEKTELIC Communications](#) a leading manufacturer of [Carrier-Grade LoRaWAN® IoT Gateways](#), Devices, and Solutions is launching a revolutionary new smart wearable designed to monitor users' health and physical activity at MWC Barcelona, Spain.

Let us introduce the [eBEAT](#) - a small, lightweight device that can be worn comfortably on the upper arm. It is designed to provide users with real-time monitoring of their body's vital signs, such as body temperature, heart rate, and blood oxygen level. It uses LoRaWAN technology to transmit data to a smartphone or other device, allowing users to track and monitor their health and wellness over time.

The TEKTELIC eBEAT is designed to be used by healthcare professionals, athletes and fitness enthusiasts alike. It is an invaluable tool for monitoring physical health and performance and provides an easy and convenient way to detect the first signs of respiratory illnesses. eBEAT goes with a hypoallergenic washable stripe, so it will suit any user.

The eBEAT Arm Band is now available on the TEKTELIC website for a closer look and review.

To see live demo and test eBEAT, please visit our booth at MWC Barcelona - Hall No. 4, Booth 4B10. We will be exhibiting from 27 Feb - 2 Mar.
