SANTA CLARA, CA, UNITED STATES, February 27, 2023

[/EINPresswire.com/](https://EINPresswire.com/) -- The dialogues focus on developing a Framework for Regulation of AI bots (such as [chatGPT](#)) that can promote privacy, accountability, and responsible uses of AI technology. These events will provide a platform for meaningful discussion of critical issues at the intersection of AI and society, and help shape a future for AI technology that is safe, viable, and sustainable.

Ensuring ethical behavior: AI assistants and ChatGPT have the potential to influence people's behavior and shape the decisions they make. Therefore, it is essential to regulate their development and use to ensure that they act ethically and are aligned with society's values and norms.

A regulatory framework for AI assistants and ChatGPT is crucial for several reasons:

1. Protecting user privacy: AI assistants and ChatGPT collect and analyze vast amounts of data, which could be used to violate user privacy or personal information. Therefore, regulation is necessary to establish data collection, storage, and usage guidelines to protect user privacy.
2. Preventing bias: AI assistants and ChatGPT rely on algorithms that are trained on data sets. These algorithms could be biased and lead to unfair or discriminatory outcomes without regulation. Therefore, it is important to regulate their development to ensure that they are fair and unbiased.
3. Promoting transparency and accountability: AI assistants and ChatGPT are often perceived as "black boxes" because their decision-making processes are not visible or understandable. The regulation framework can promote transparency and accountability by requiring developers to

The poster features the Boston Global Forum logo and the word 'WEEKLY' in large teal letters. Below this, it lists the event title 'BGF HIGH LEVEL DIALOGUES ON REGULATION FRAMEWORK OF AI ASSISTANTS AND CHATGPT' and the date 'The first Dialogue: February 28, 2023 (Online)'. An 'Agenda' section follows, detailing the schedule from 8:30 AM to 11:05 PM, including a welcome by Governor Michael Dukakis, a keynote by Vint Cerf, and a panel discussion moderated by Governor Michael Dukakis. The panelists listed are Thomas Patterson, Martha Minow, Zlatko Lagumdzija, John Henry Clippinger, Ramu Damodaran, and Bao Tran. The poster concludes with closing remarks by Nguyen Anh Tuan.

Bao Tran presents at Boston Global Forum 2-28-2023

explain how their AI systems work and how they make decisions.

The regulation framework is critical to ensure that AI assistants and ChatGPT are developed and used in a responsible, ethical, and fair manner that benefits society as a whole.
