The journey began with educating females on the dangers of using traditional, toxic feminine care products which can lead to vaginal infections, irritations, and even severe health issues such as cancer, fibroids, endometriosis, PCOS, and infertility. We wanted to provide a natural alternative to these products, and to empower women to make informed choices about their health.

We are grateful to Lexann for joining our mission by relaunching Women's Haven in Guyana and contributing to a positive change in the world for Caribbean women and girls.”

This partnership with Lexann's Nail Creations and Women's Haven is another example of Caribbean women supporting each other in self development and growth.
