

Blockchain Laboratories is Sharing Thought Leadership at Climate, Sustainability, and Web3 Summits in March

Blockchain Laboratories is Sharing Thought Leadership at Climate, Sustainability, and Web3 Summits in March

SHERIDAN, WYOMING, UNITED STATES, February 27, 2023 /EINPresswire.com/ -- Starting March 1st 2023, Blockchain Laboratories is preparing to launch web3 solutions they have been developing for over a year, by attending industry leading events to share the news of the upcoming launches.

Blockchain Laboratories Web3 ESG Venture Studio that is Innovating Carbon Markets

Blockchain Laboratories has been building two carbon credit registries on Distributed Ledger Technology(DLT), and a Nature Preserve Timeshare. And on track to launch the web3 platforms in quarter 2 2023.

On March 1st, Boone Bergsma the Founder/CEO of Blockchain Laboratories will attend ETHDenver Climate Summit <https://www.climatesummit.world/> for a series of conversations and keynotes bringing together thought leaders at the intersection of ReFi, carbon markets, ESG, sustainability and blockchain.

ETHDenver Climate Summit is a day-long summit bringing speakers at the intersection of ReFi, blockchain, ESG, carbon markets, and sustainability together for interactive conversations on the path to net zero and building climate resilient communities. And it is a carbon neutral event do to them offsetting the event carbon footprint.

On March 16th and 17th, Boone will be at the World Sustainability Summit <https://www.sustex.world/> to present the web3 carbon credit registry and nature preserve timeshare projects. The event is focused on Emerging Tech, Green Finance, ESG, Net-Zero, Circular Economy, and Re-Fi and happening in Dubai, United Arab Emirates.

The 2nd edition of “Sustex - Tech Innovation for Climate Action” returns to Dubai, with a vision to create an impact in the climate action ecosystem. An event for the key people in the Tech for Sustainability ecosphere. The event will showcase strategic panel discussions, insightful keynotes, product showcases, and technology workshops to help attending delegates discover apt solutions to their climate action activities.

The event is designed to offer you a deep insight into how blockchain and technology as a whole can help you achieve your ESG goals. This year, the SUSTEX conference features award-winning ESG and Tech professionals alongside the world's most fascinating professionals from different fields.

On March 19th, 20th & 21st, Boone will be at the World Blockchain Summit <https://www.worldblockchainsummit.com/> at Atlantis The Palm, in Dubai. WBS is the world's longest running Blockchain Summit Series since its inception in 2017. WBS has hosted over 20 editions in more than 10 countries and Reshaping the future of Web 3.0.

World Blockchain Summit strives to create the ultimate networking and deal flow platform for the web 3.0 ecosystem. Each edition brings together global leaders and emerging startups in the space including investors, developers, IT leaders, entrepreneurs, government authorities and others.

World Blockchain Summit is a platform for networking, thought leadership, and deal flow for the web 3.0 community, with a curated agenda addressing current market trends and challenges. The event includes an exhibition floor for showcasing innovative projects, a deal flow space for investors, and networking opportunities with industry leaders and innovators.

WBS brings together blockchain solution providers, who demonstrate their latest innovations designed to enable businesses and organizations to adopt blockchain technology.

The World Blockchain Summit connects you with industry experts in the field of Blockchain technology. These IT leaders, tech entrepreneurs, and Blockchain developers are also thought leaders in the crypto world giving you an insight into how to be an expert in this field.

WBS has an expansive list of government, private sector companies, and associations from around the world. These entities share our vision to help foster the continued growth and development of the web 3.0 ecosystem.

Blockchain Laboratories primary objective in presenting at and attending these events is to network and make connections with web3 & ESG investors, and meet leaders of companies that buy carbon credits or have committed to carbon neutrality.

The web3 ESG and carbon credit solutions that Blockchain Laboratories has been working on

offer the market more transparency into the lifecycle of carbon credits, and offer more nature positive co-benefits than other carbon credits on the market today.

If you are looking for impactful offsets or how to leverage digital assets in your business, and going to be at any of the mentioned events you should connect and meet with Boone Bergsma while there. You can [connect with him on LinkedIn](#) to schedule time.
