

FlashInfo Launches New "Job Posting" Filter to Help Sales Teams Identify Better Signals for Selling

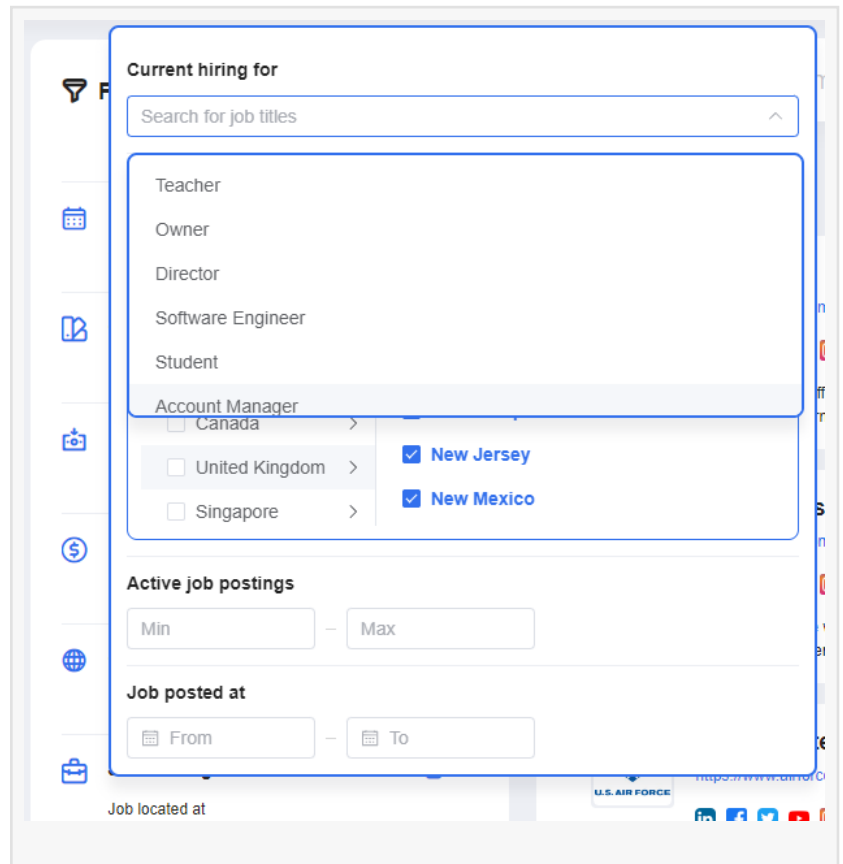

SAN FRANCISCO, CALIFORNIA, UNITED STATES, February 28, 2023

/EINPresswire.com/ -- FlashInfo, the leading sales intelligence platform by [FlashCloud Intelligence](#), has announced the launch of its new "Job Posting" filter. The feature provides sales teams with the ability to identify key signals that indicate a potential opportunity for selling, helping them to more effectively target prospects and close deals.

The "Job Posting" filter is designed to help sales teams stay ahead of the competition by providing access to real-time data on job postings and company growth. By using this feature, sales teams can identify companies that are expanding and likely in need of their services and products, as well as track personnel changes that may create new opportunities for selling.

"We're excited to offer our customers this new feature, which we believe will greatly enhance their ability to identify and target potential prospects," said Jerry Limber, SVP of Product Strategy and Revenue Operations of FlashCloud Intelligence. "The 'Job Posting' filter is just one example of our commitment to providing our customers with the most advanced sales intelligence platform available."

With the Go-to-Market constantly evolving, sales teams need tools that can help them stay ahead of the game. The "Job Posting" filter is just one of many features offered by FlashInfo that helps businesses stay up-to-date on the latest trends and opportunities in their industry.
