Availability of recycled plastic furniture, which is made from plastic waste such bottles, plastic toys, and ocean plastic finds its application in outdoor furniture. Various stakeholders are creating plastic furniture by using a waste plastics. For instance, ScanCom International A/S is an

outdoor furniture company, which recently introduced DuraOcean and DuraLand, which are plastic furniture completely made from recycled maritime plastic waste, setting a benchmark for sustainable material usage and design.

Moreover, eco-Birdy a European furniture manufacturing company has currently launched ecoBridy recycled plastic furniture for kids. The company further announced that its complete line of production plastic furniture is 100% recyclable and does not contain any harmful chemical. Hence, rise in trend of using recycled plastic furniture by various stakeholders is expected to create lucrative opportunity for the plastic furniture market growth. However, the major impact of plastic furniture is on the environment, as it takes many years to decompose and releases harmful toxins into the soil. Moreover, plastics are omnipresent in the marine environment, thus polluting environment and requiring urgent actions.

Plastic furniture is more affordable and efficient as compared to other materials. Moreover, plastic furniture are available in various designs, types, and colors that can easily match the ambience of home, restaurant, hotel, and offices which is also the current plastic furniture market trend. Apart from having flawless designs and vibrant colors, plastic furniture are extremely durable. As the metal chairs and wooden chairs are stiff, they deform or break quickly. On the contrary, the flexibility of plastic furniture makes it easy for them to resist extreme pressure and damages.

In addition, presence of plastic pose a threat not only to marine life but also to agricultural land. This is attributed to the fact that plastic is responsible for the dilapidation of the agriculture land and atmosphere, which continuously use precious earth resources, in particular oil. This is now posing threat to environmental and agricultural production. Thus, adverse effects of plastic on marine life and agriculture land is restricting the growth of the plastic furniture market.

The outbreak of the COVID-19 pandemic has created a number of challenges for exporters in developing and developed countries. The challenges witnessed by exporters of plastic furniture products are likely to remain for the foreseeable future, as different states and governments around the world attempt to tackle COVID-19 with various measures.

However, implementation of lockdown and curfew practices globally have affected domestic as well as international production of plastic furniture, which, in turn, hampers growth of the overall market. Thus, the outbreak of COVID-19 has negatively impacted the plastic furniture market in 2020, as sales of companies have reduced and operations have been halted.

Region wise, North America acquired the largest plastic furniture market share in 2019, and is expected to grow at a CAGR of 4.0%.

The key players profiled in the plastic furniture industry report Avro India Limited, Cello Group, Cosmoplast Industrial Company LLC, Keter Group, Nilkamal Limited, Pil Italica Lifestyle Limited, ScanCom International A/S, The Supreme Industries Limited, Tramontina, and Uma Plastics

Limited.
