

Experion Technologies ranked among top 100 fastest-growing private companies in the United States, Southwest Region

The third consecutive Top 100 ranking for the company in the Inc. 5000 Regionals list.

DALLAS, TEXAS, UNITED STATES OF AMERICA, March 2, 2023 /

EINPresswire.com/ -- Inc. magazine today revealed that Experion Technologies, a global Product Engineering company, is on its fourth annual Inc. 5000 Regionals Southwest list, the most prestigious ranking of the fastest-growing private companies based in Arizona, New Mexico, Oklahoma, and Texas. The Inc. 5000 regional list represents a unique look at the most successful companies within the Southwest economy.

Previously, Experion Technologies has also been ranked on the nationwide Inc. 5000 list for five consecutive years.

"There is a reason why some of the world's largest companies as well as the world's fastest growing early-stage companies choose Experion Technologies. We are among the very few players worldwide that strive to execute on the customer's vision, strategy, and goals and craft them into product roadmaps aligned tightly to business priorities. Our engineering maestros follow this up by developing products that deliver exceptional business value to our customers. We are truly proud of our teams who make this happen for our customers every single time. Product Engineering is all we know and truly care for since our formation seventeen years ago. We remain dedicated to pushing boundaries and delivering exceptional value to our clients. We are of course thrilled with being ranked as one of the fastest growing private companies in the Southwest yet again." said Mr. Manoj Balraj, President and Co-founder of Experion Technologies.

Manoj Balraj- Co-Founder and Executive Vice President Sales- Experion Technologies

Companies on the 2023 Inc. 5000 Regional Southwest list had an average growth rate of 557 percent across all industries in the Southwest region. Between 2019 and 2021, the Inc 5000 private companies added 16,116 jobs and nearly \$5.5 billion to the Southwest region's economy. Companies based in the Austin, Texas, Scottsdale, Arizona, and Fort Worth, Texas, areas had the highest growth rates overall.

"This year's Inc. 5000 Regional winners represent one of the most exceptional and exciting lists of America's off-the-charts growth companies. They're disrupters and job creators, and all delivered an outsize impact on the economy. Remember their names and follow their lead. These are the

companies you'll be hearing about for years to come," says Scott Omelianuk, editor-in-chief of Inc. magazine.

About Experion Technologies

“

Experion: We are among the very few players worldwide that strive to execute on the customer's vision, strategy, and goals and craft them into product roadmaps aligned tightly to business priorities.”

Manoj Balraj, President and Co-founder of Experion Technologies.

Experion Technologies, founded in 2006, is a Global Product Engineering Services company offering enterprises future-ready and transformative digital solutions. The organization's product engineering maestros work out of 3 development centers in India – Trivandrum, Kochi, and Bangalore, and 6 global offices across United States, Australia, and Europe.

Experion Technologies has been recognized multiple times by Frost and Sullivan, Clutch, Inc. 5000, and Everest Group for core expertise in Digital and Software Product Engineering services. Experion brings expertise in the latest digital technologies to derive exceptional product

experiences by utilizing Data and AI, Experience Design, Cognitive Computing and DevSecOps capability to craft the product vision, strategy and goals into well engineered products. Experion Technologies digitizes business processes and helps improve operational efficiency and

productivity in the Financial Services, Insurance, Healthcare, Automotive, Transport and Logistics, Construction & Engineering, and EdTech sectors.

As a partner to 500+ customers across 36 countries, Experion's team of 1500+ product engineering maestros is focused on creating meaningful value, innovation, and shared success through digitally driven programs for its customers, partners, and local communities. Experion is ISO 27001:2013 and QMS (9001: 2015) certified, and is committed to international data protection standards, compliant with SOC 2 Type II. The organization has also been certified as a Great Place to Work for two consecutive years.
