LONDON, , UNITED KINGDOM, March 1, 2023 /EINPresswire.com/ --

Renewable energy could and will power the world by 2060. The world economy development needs to become more sustainable in a world powered by renewable energy at 100%.

#Eni subsidiary #Plenitude acquired stake in Hergo Renewables. Hergo Renewables currently has a 1.5GW project portfolio in Spain and Italy. #ENI group has chosen to appoint Giuseppe Ambrosio as audit member

committee in #Ergo Renewables due to his international experience in the Energy renewables industry and 20 years in practices with #BIG 4 and probably also due to his specialty in #Forensic Audit. Eni is a global energy company, active at every stage of the value chain: from natural gas and oil to co-generated electricity and renewables, including both traditional and bio refining and chemicals.

“

As a business owner, you need to know the true value of your company. Whether you're planning to sell, looking for investment opportunities, or just want to understand your business's financial health”
