Clark Law Firm P.C. obtained a \$400,000 settlement for a 55-year-old injured in a T-Bone collision. The client was represented by Mark W. Morris, Esq.

BELMAR, NEW JERSEY, UNITED STATES , March 7, 2023 /EINPresswire.com/ -- On July 27, 2018, our client was on her way to buy her 8-year-old grandson a birthday present when an 18-year-old defendant drove through a stop sign and collided with our client's vehicle. The defendant stated, "I thought I could make it." Unfortunately, this was not the case and the crash caused the client's car to catch fire and she was removed from the vehicle and placed down on a nearby lawn while EMS personnel arrived at the scene.

The injured party was experiencing pelvic pain and was taken by ambulance to Southern Ocean Medical Center in Manahawkin, New Jersey. At SOMC doctors discovered that the client had multiple fractures in her pelvis as well as internal bleeding. Because of internal bleeding, the client was taken to Jersey Shore University Medical Center in Neptune, NJ, where doctors had to perform bypass surgery to stop the bleeding.

The pelvic injuries did not require surgery and after in-patient rehab at SOMC, the client was discharged home. At home, the client continued physical therapy and had a subsequent fall due to her weakened state where she fractured her knee and sprained her ankle.
