This year, the awards recognize:

"We are honored for EDRM to receive this award from JD Supra's readers in our first year," said Mary Mack, CEO and

chief legal technologist of EDRM. "It is a testament to the hard work and dedication of our faculty, authors, advisors, trustees, contributors and guests who have worked tirelessly to provide our community with exceptional eDiscovery education and information. Kaylee and I are thrilled to bring our EDRM community to the JD Supra platform."

Methodology

As the name suggests, the Readers' Choice Awards reflect a deep dive into their 2022 reader data, in which they studied total visibility and engagement among readers across many industries interested in certain defining topics of the day.

Kaylee & Mary

JD Supra editors chose the 31 main topics covered in this year's Readers' Choice Awards for their timeliness as well as their proven, ongoing importance. In each category, they recognize ten authors and one firm for consistently highest readership and engagement within that category for all of 2022. In total, across all categories, we recognized the excellence and achievement of 303 authors selected from over 70,000 who publish their excellent work on our platform.

Along with a top firm in each category, they also feature additional reader data, including the top five most-read articles, popular related topics, total number of authors, and other category-specific information.

"We are proud to be recognized as the #1 Firm in eDiscovery by JD Supra's readers," said Kaylee Walstad, chief strategy office of EDRM. "This award is a reflection of the brilliant authors, podcast guests and webinar presenters and how their cutting-edge education and information has resonated with JD Supra's readers. The wonderful team at JD Supra made it so easy for us to share content and their support has been beyond white glove."
