

Telecom Cloud Market Value to Exceed USD 125 Billion by 2030

Rapid expansion of IT organizations and telecommunication industry acts as the key driving force of the global telecom cloud market.

PORTLAND, PORTLAND, OR, UNITED STATES, March 2, 2023 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global telecom cloud market was estimated at 18 billion in 2020 and is expected to hit \$125.64 billion by 2030, registering a CAGR of 21.80% from 2021 to 2030. The report

Telecom Cloud Market Value

provides an in-depth analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive scenario, and wavering market trends.

The rapid expansion of IT organizations and the telecommunication industry and modernization of information technology drive the growth of the global telecom cloud market. On the other hand, certain limitations of the cloud model impede the growth to some extent. However, significant advances in the domain of cloud computing and telecom services are expected to create lucrative opportunities in the industry.
