

# Synchronized Planning by CONSILIO: How to master volatile market situations

*CONSILIO shows how users can proactively respond when turnover and production fall apart using advanced SAP solutions such as IBP and PP/DS.*

DORNACH, GERMANY, March 6, 2023 /EINPresswire.com/ -- Economic and political disruptions, such as the loss of reliable land, sea and air transport routes, pose major challenges to companies in all industries. These can include issues such as extreme weather conditions, disruptions to major waterways such as the Suez Canal, pandemic-related closures of port facilities or airports, and rising energy and commodity prices. However, classic ERP logistics modules are not suitable for proactively responding to short-term, unpredictable market situations. In such situations, end-to-end digitally networked solutions are required that offer maximum transparency and real-time information. While they cannot prevent the disruptions, they can potentially reduce the negative impact on day-to-day business.

SAP's cover story, "Keep the World Running with SAP Digital Supply Chain," published by Digital Innovation Magazine, should also be seen in this context. [CONSILIO](#), the Munich-based SAP specialist, contributed an expert article to the publication. Under the heading "[What to do when turnover and production fall apart?](#)", the SAP experts at CONSILIO show how companies from various industries can proactively respond to

Economic and political frictions such as the breakdown of reliable land, sea and air transport routes pose major challenges to companies from all sectors.

## CONSILIO

CONSILIO is an independent, internationally active consulting company in the SAP environment and covers the core aspects of consulting for solving business challenges from strategy to functional and technical design to complete implementation.

“

Do you want to optimally coordinate your rough and detailed planning processes? Together we develop a future-oriented strategy with coordinated planning processes of your supply chain and production.”

*Christoph Habla, Partner and Head of IBP, CONSILIO GmbH*

short-term, unpredictable market situations with the help of modern SAP solutions and Synchronized Planning - in particular with the Integrated Business Planning (IBP) and PP/DS modules.

CONSILIO, headquartered in Munich, Germany, is an independent, internationally active consulting firm with locations in Germany, Bulgaria and Switzerland and is an expert in optimizing processes, implementing forward-looking solutions for finance, sales, production and logistics, and transforming integrated SAP applications to S/4HANA.
