

Trailrunner Broadband Pursues Customer Internet Aid With ACP Benefit Participation

Trailrunner Broadband is participating in the ACP Benefit to help customers lower their monthly internet costs.

PORTLAND, MAINE, UNITED STATES,
March 2, 2023 /EINPresswire.com/ --

[Trailrunner](#) Broadband Internet,

provider of trusted wireless internet service in rural communities, is helping eligible customers lower their monthly broadband internet costs by participating in the [Affordable Connectivity Program](#) Benefit. The Affordable Connectivity Program (ACP) is an FCC program that replaces the [Emergency Broadband Benefit](#) Program (EBB Program) to help low-income households pay for internet service and connected devices.

Our mission as an internet provider is to do everything in our power to close the digital divide that exists in rural communities..."

Robert Parsloe, CEO

The Affordable Connectivity Program provides a discount of \$30 per month towards broadband service for eligible households and up to \$75 per month for households on qualifying Tribal lands. The Affordable Connectivity Program is limited to one monthly service discount per household.

Trailrunner chose to participate in the program as an early adopter with their participation starting in May of 2021. "Our mission as an internet provider is to do everything in our power to close the digital divide that exists in rural communities. The ACP Benefit allows us to further accomplish our goals of helping those in need." says Robert Parsloe, CEO and founder Trailrunner Broadband.

Currently, Trailrunner provides the ACP Benefit to over 50 eligible subscribers with more requests coming into the fold. Within one month of the Federal Government launching the ACP Benefit, more than 1 million households across the United States successfully signed up.

With internet options in rural areas becoming more scarce due to coverage availability or inconsistent pricing, Trailrunner is paving the way for customers to have reliable internet access that works for them and not against them.
