## [Trending Immunity Boosting Food Products Market Trend](#)

Instant immunity booster products are increasingly being used to boost immune function, which is used when under stress in the modern world. For instance, in January 2020, ZAND, the natural lozenge brand in health food stores known for herbal-based immune support, launched the first rapid immunity product, Immune Fast. This breakthrough new supplement delivers clinically supported immune support whenever and wherever at work, the airport, school, large gatherings, anywhere. Thus, it is used on the spot to boost the immune system within two hours.
