

CoreStack and TCS Partner to Provide NextGen Cloud Governance Solutions

Tata Consultancy Services to Implement CoreStack's Comprehensive FinOps, SecOps, and CloudOps Solutions for Large Enterprises

BELLEVUE, WASHINGTON, UNITED STATES, March 7, 2023

/EINPresswire.com/ -- CoreStack, a global multi-cloud governance provider, announced that it has partnered with Tata Consultancy Services (TCS), a leading global IT services, consulting, and business solutions organization, to provide

NextGen Cloud Governance to large enterprises looking to optimize their cloud operations. The joint solution, called CloudFinOps, is built on CoreStack's CloudOps, FinOps, and SecOps, and is available as a SaaS-based solution. TCS will leverage its customer-specific contextual knowledge to provide governance services to customers.

“

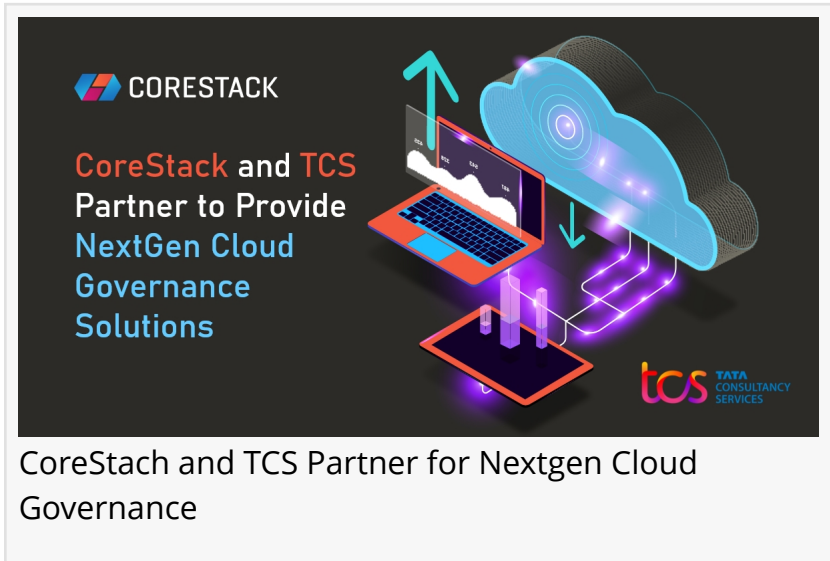

We are pleased to join forces with CoreStack to provide a comprehensive cloud governance solution to our customers.”

*Akhilesh Tiwari, President,
CMIS Americas, TCS*

The CloudFinOps solution provides a single pane of glass for monitoring multi-cloud operations, cost control, and security recommendations in multi-cloud environments across Amazon AWS, Google Cloud, Microsoft Azure, and Oracle Cloud Infrastructure. The solutions will be instrumental in securing perimeters of the cloud ecosystem.

CoreStack's NextGen Cloud Governance platform is

designed to improve process efficiency, productivity, and reliability by enabling rule-based automation, continuous monitoring, and improved visibility. With new levels of visibility into, and control over cloud costs, CoreStack FinOps empowers enterprises to reduce spend, create more accurate forecasts, optimize cloud usage, and attribute 100% of cloud costs, promoting a culture of financial accountability. CoreStack's SecOps makes it easy to assess, remediate, and ensure multi-cloud security with support for more than 2,100+ policies.

CoreStack and TCS Partner for Nextgen Cloud Governance

“We are pleased to join forces with CoreStack to provide a comprehensive cloud governance solution to our customers,” said Akhilesh Tiwari, President, Communications, Media & Information Services Americas at TCS. “Our customers are experiencing an increased drive to optimize their cloud spending. With CloudFinOps, which is jointly developed by CoreStack and TCS, along with TCS’ value realization office framework, we help customers drive superior business outcomes, while reducing cloud spend across the organization.”

The CloudFinOps solution empowers enterprises to reduce cloud spend, optimize cloud usage, and ensure security and compliance. The flexible pricing model, makes it a cost-effective solution for large enterprises.

“We are thrilled to partner with TCS to provide our mutual customers with a comprehensive solution for optimizing their cloud operations, finance, and security,” said Suren Singh, Vice President of Global Partnerships and Alliances at CoreStack. “With TCS’ expertise in IT services and CoreStack’s innovative cloud governance platform, customers can reduce their cloud spending, increase their financial accountability, and maintain a high level of security and compliance.”

CoreStack offers a suite of NextGen Cloud Governance modules that leverage AI to provide continuous and autonomous governance for FinOps, SecOps, and CloudOps across multi-cloud through one unified dashboard. This platform is designed to be Continuous, Holistic, Autonomous, Integrated, and Nimble (CHAIN) so enterprises can use cloud with confidence. NextGen Cloud Governance helps enterprises mitigate risk, accelerate delivery, optimize performance, and innovate. In addition, CoreStack offers a suite of assessment tools that include Well-Architected Assessments as well as FinOps and SecOps assessments. These solutions streamline the process of assessing, improving, and maintaining cloud workloads across all environments, including enabling auto-remediation directly from the CoreStack dashboard.
