

inGen Dynamics integrates ChatGPT to its range of Robots including Aido, Fari, Kobe and Senpai

Ingen Dynamics, the leading Robotics, AI and Automation company, has announced that it has integrated ChatGPT into its Aido range of robots.

PALO ALTO, CA, UNITED STATES, March 5, 2023 /EINPresswire.com/ -- [Ingen Dynamics](#), the leading Robotics, AI and Automation company, has announced that it has integrated ChatGPT into its Aido range of robots. This move is set to revolutionize the capabilities of the Aido range, as it will now be equipped with the most advanced conversational AI available in the market.

With the integration of ChatGPT, the Aido range of robots will be able to provide more personalized, human-like interactions with their users, making them ideal for a range of different applications. This integration is particularly exciting for the healthcare, telemedicine, and elderly care industries, where the Aido robots can assist with patient care and help improve the quality of life for those in need.

Furthermore, the ChatGPT integration will greatly benefit the Senpai range of robots, designed specifically for education for children. These robots can now offer personalized learning experiences and support, increasing their effectiveness as an educational tool. Similarly, the Kobe range, designed for fitness and lifestyle, will be able to offer personalized health and wellness advice and support, making them an ideal

addition to any fitness routine.

Even the core Aido units, including retail, hospitality, and leisure, will benefit from the ChatGPT integration. The robots will be able to provide personalized recommendations, guidance, and support to customers, improving their experience and helping businesses grow.

In addition to this exciting announcement, InGen Dynamics has also started shipping their Aido TableTop units worldwide. The company is committed to providing

innovative and useful products to their customers, and this move reflects their forward-looking approach to the market.

According to the InGen Dynamics CEO [Arshad Hisham](#), "Integrating ChatGPT into our Aido range of robots is a significant step forward for our company and our customers. We are excited about the possibilities this integration brings and the value it will bring to our customers across a range of industries. We are committed to providing cutting-edge technology and exceptional service to our customers, and this is just one example of how we are delivering on that commitment."

Overall, the integration of ChatGPT into the Aido range of robots represents a significant step forward for InGen Dynamics and its customers. With more personalized, human-like interactions, the Aido robots are set to become even more useful and valuable across a range of industries.
