

# Aroma Retail Solves The Problem of Marijuana Smell with Canna-Less

*Aroma Retail Unveils New Scientifically Supported Cannabis Smell Neutralization Line.*

LAS VEGAS, NEVADA, UNITED STATES,  
March 9, 2023 /EINPresswire.com/ --  
FOR IMMEDIATE RELEASE

[Aroma Retail](#), LLC, the leading provider of ambient scenting and scent delivery systems for homes and businesses, is proud to announce a breakthrough in aromatic science. Aroma Retail's [Canna-Less](#) line of scenting solutions is the first scientifically proven solution to neutralize and abate cannabis odors. The Canna-Less line of scents will allow businesses and individuals to

neutralize the distinct marijuana smell in an innovative, cost-effective, environmentally friendly, and efficient way. Canna-Less will be available to businesses and homeowners in fragrance oils for all our scent machines and in easy-to-use sprays for use at hotels, stores, homes, and offices.

"I knew that we needed a real solution that actually neutralizes the skunky smell of marijuana rather than just another product that merely covers it up like what was already on the market," said, Jim Reding, CEO of Aroma Retail, "I wanted to find a solution that stayed true to our pure-grade fragrance standard, which means no synthetic toxins and no volatile organic compounds (VOC's)."

VOC's are naturally occurring organic ingredients that are still harmful to people and pets, like pollen that can cause adverse or allergic reactions. Pure Grade is an important standard to Aroma Retail because many of their customers are businesses, including resorts, where the fragrance oil is being diffused into public spaces without the public's consent.

Aroma Retail's Canna-Less line is unique in the industry because it is [scientifically designed to](#)

[target the Cannabis smell](#). We have found three natural scent molecules to create products that effectively neutralize the smell of marijuana at the molecular level. These safe, natural neutralizing molecules are attracted to the radical sulfur atom that is generated by Marijuana called Prenylthiol ( 3-methyl-2-butene-1-thiol) and effectively neutralize it after they combine.

Canna-Less comes in three distinct fragrances Matchajuana, Peach by the Gram, and Reefresh, all of which are capable of being diffused in small sprays or in large volumes of fragrance oils that the commercial scenting machines use in hotels and offices.

#### About Aroma Retail

Aroma Retail is a Green-Certified scenting company based in Las Vegas, well-known for its collection of signature resort scents and unique fragrance libraries. Canna-Less Product Line: Room Sprays, Fabric Sprays, Fragrance Oils

Matchajuana smells like freshly crushed green tea leaves. Once it combines with the marijuana smell, it transforms into the smell of freshly brewed matcha tea, with citrus, jasmine, and green apple.

Peach By The Gram smells like an unripe peach. Once it combines with the marijuana smell, it transforms into the smell of ripened peaches, with vanilla, apricots, and cream.

Reefresh smells like zesty citrus with a very light florals and woods. Once it combines with the marijuana smell, it becomes stronger with orange, mint, violet, cedarwood, and jasmine.

3 fragrances to choose from: Matchajuana, Peach by the Gram, and Reefresh
