

# Smart TP: World's First Touchless Toilet Paper Dispenser Has Arrived

*The world's first touch-less toilet paper dispenser*

*Smart TP device is the perfect addition to your toilet.*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, March 9, 2023

/EINPresswire.com/ -- Smart TP, a company committed to making toilet experiences more hygienic, clean, and sustainable, has introduced the world's first touchless toilet paper dispenser. The Smart TP device utilizes proven technology to control delivery while ensuring a healthy lifestyle.

The Smart TP dispenser is the perfect addition to any toilet with its configurable length of paper delivery

that activates with a simple wave of the hand. The dispenser also features a dedicated storage space for stashing 25PCs of trash bags, a second drawer to stash important items, a nightlight for visibility in the dark, a phone slot on the top, a flat surface to place important items, and an LED light indicator that notifies when TP is dispensing or when it's out of stock.

“

The 1st Toilet Paper Dispenser was invented in 1871 by a man named Seth Wheeler. It's time to ditch that traditional dispenser and get with the future Smart TP Dispenser Go touch-less.”

*Masi Razai*

Smart TP is suitable for personal and public toilets, and the dispenser is useful for people concerned about toilet hygiene, paper waste, nerve disorders, and shaky hands. Additionally, parents and young kids can have a fun and easy potty-training experience. Smart TP is also ideal for hospitals, hotels, nursing homes, restaurants, and any other high-traffic public restrooms.

Smart TP is convenient, refillable, reusable, and hassle-

free. The company is committed to sustainability by reducing toilet paper waste by 50% and water flushes by 25%, taking a serious step towards a lower carbon future.

Interested in using the world's first touchless toilet paper dispenser? Reserve yours today for a \$1 VIP price on [Kickstarter](#).

The dispenser will start at \$89.99 instead of \$149.99.
