"Legion of Judgment: Fallen Angel" is an RPG Metroidvania game featuring realistic graphics using Unreal 5 and stylish combat elements using swords against enemies using automatic machines. Explore forgotten memories to become stronger, manage a hotel in real life and rebuild a powerful army capable of winning the Werewolf Alliance.

You are legion. And you are their boss.

Legion of Judgment: Fallen Angel lets you explore deeply across interconnected maps, moving between

the real (banks, opera houses, mega buildings, etc.) and the unreal (memory palaces, lava, cemeteries, etc.) You can gradually increase the area of exploration by acquiring abilities.

Progress through the story and join new allies through real-world missions to rebuild your legion and win the war against the Werewolf Alliance.

You can wishlist Legion of Judgment: Fallen Angel [here](#).

Legion of Judgment: Fallen Angel+ will be available on Steam, Epic games and Playstation in 2024.

- Main features

: Lead the werewolf union and lonely war to victory.

: Find new powers and expand your exploration in an action-packed exploration RPG.

: Recover the protagonist's lost memories and become more powerful.
