

PWTech welcomes Vincent Rada to leadership team

Wastewater solutions provider welcomes Denver-based RSM to better serve clients in western US and Canada

ROSEDALE, MD., USA, March 7, 2023 /EINPresswire.com/ -- Process Wastewater Technologies LLC (PWTech), an American manufacturer of wastewater equipment, welcomes Vincent Rada as sales manager for the western US and Canada. Rada brings more than six years of water industry experience and will provide support for municipal and industrial treatment facilities across the region. The strategic hire is a response to a sharp increase in demand for high quality treatment systems to meet evolving [environmental requirements](#).

“We are very excited to have Vincent on the team,” said Alex Davey, PWTech president. “I’ve known him for years and believe he will be a great addition to our growing team. Vince’s forward-thinking character is perfectly suited to help our customers during this time of accelerating change.”

“

Vince’s forward-thinking character is perfectly suited to help our customers during this time of accelerating change.”

Alex Davey, PWTech president

Rada has previously served the industry in both engineering and sales roles in municipal and industrial sectors. As a Colorado native, he understands the unique challenges facing the area, including a [push for wastewater reuse](#) stemming from prolonged drought conditions. Recent years have also seen a heightened public interest in the makeup of biosolids used in agricultural fertilizer.

Rada, who holds a bachelor’s degree in mechanical engineering from the University of Missouri, will be largely focused on the Volute product line in his territory, introducing its capabilities to new utilities and supporting existing clients.
