

DCMS Network Now Offering Services in Orlando Florida: Experience the Transformation of Pre-existing Structures

Experience the Transformation of Pre-existing Structures

ORLANDO, FL , UNITED STATES , March 7, 2023 /EINPresswire.com/ -- [DCMS Network](https://www.dcms-network.com/) is proud to announce the expansion of its As-Built services to Orlando, Florida. As a leading coast-to-coast agency specializing in data capture and modeling for the built environment, the company offers a wide range of As-Built services to help Architects, Interior Designers, Building owners and more transform their structures. "The launch of our As-Built services in Orlando marks an important milestone for DCMS Network and speaks to the company's commitment to providing reliable solutions for all of our clients' needs," said marketing director, Antonio Tomecich Cavagnari.

DCMS As-Built services use 3D Scanning technology and features the new Leica RTC360 laser scanner. The RTC360 laser scanner provides clients with precise 3D visualizations crucial to As-Built Services by capturing over one million points per second, creating 360-degree scans in minutes, and providing exceptional accuracy.

3d scan of a structure

AS built of a building

This advanced equipment allows clients to obtain precise 3D visualizations crucial to As-Built Services by greatly reducing the time associated with traditional As-Built services and providing an unparalleled level of accuracy for interior as well as exterior surfaces. With this expansion, Architects, Interior Designers, Building owners, and more can now transform building structures with ease thanks to this technologically advanced solution.

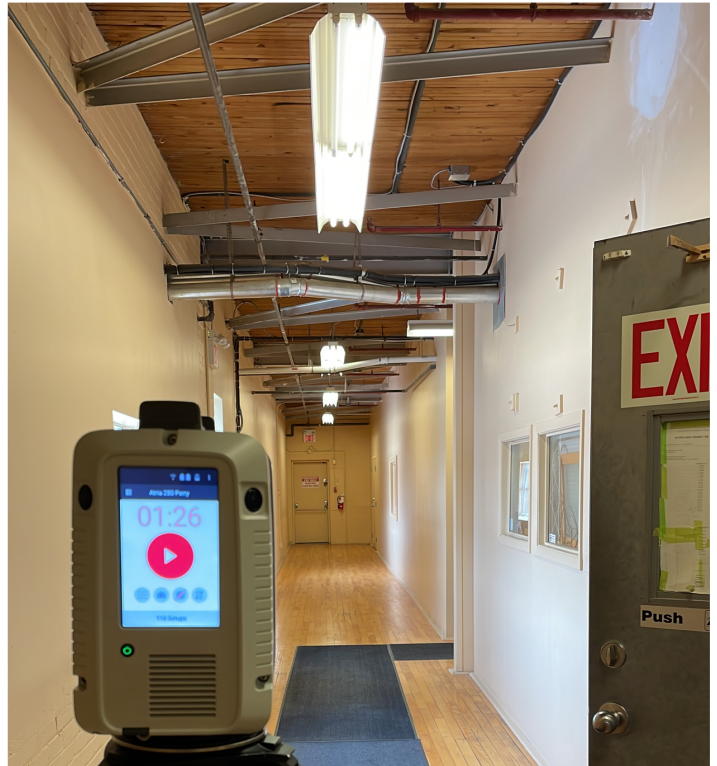

The DCMS Network is an invaluable resource when it comes to helping people who are faced with common problems related to building plans. The company's team is committed to providing clients with the most reliable and up-to-date information about the building structures, no matter how complicated the situation may be. With a wide range of services that can provide solutions for any of these six main issues: not having reliable existing building information, original building site plans not being digitized, lost plans on old buildings, many changes taking place since the last plan, a need for plans with an expedited turnaround time, and difficulty in understanding all of the available data.

“

The launch of our As-Built services in Orlando marks an important milestone for DCMS Network and speaks to the company's commitment to providing reliable solutions for all of our clients' needs”

Antonio Tomecich Cavagnari

The company provides the perfect solution for those looking to save time and money when capturing building information. With the company's experienced professionals and reliable technologies, customers can rest assured that projects will be delivered quickly and accurately every time. Now that DCMS Network's services are available in Orlando, local businesses can look forward to amazing transformations that will bring their structures up-to-date with modern standards.
