Miami-based consultancy earns two prestigious Global awards

MIAMI, FL, USA, March 8, 2023 /EINPresswire.com/ -- Technology Coast Partners (TCP), a Miami-based consulting firm representing multiple enterprise business solutions, today announced it has been named a winner of two SugarCRM 2023 Partner Awards.

> "
> We are extremely honored to receive the global recognition from SugarCRM especially in an ecosystem that includes CRM, Marketing and Customer experience experts from all over the world. "
>
> *Ivan Rebolledo, TCP's Chief Revenue Officer*

Each year, Sugar spotlights the outstanding efforts, contributions and results from its partner community serving Sugar customers worldwide. Award winners are chosen based on partner performance, customer outcomes and commitment to Sugar's product and service standards.

TCP represents the best in class business software solutions available in the market to their clients in Latin America and the world.The firm was recognized as the Global Partner Marketing Leader of the Year and the Global Distributor of the Year at Sugar CRM Awards in Atlanta during their annual user conference in February.

"We are extremely honored to receive the global recognition from SugarCRM especially in an ecosystem that includes CRM, Marketing and Customer experience experts from all over the world. The team at TCP remains committed to push the envelope to achieve the highest performance as a regional distributor for Latin America supported by a world class digital marketing operation," said Ivan Rebolledo, TCP's Chief Revenue Officer.

"We congratulate each of our partner award winners for their incredible achievements in serving Sugar customers worldwide and for their shared commitment to make the hard things easier for sales, marketing, and service professionals," said Clint Oram, SugarCRM Chief Strategy Officer and Co-Founder. "They are distinguished for providing valuable expertise in leveraging the Sugar platform to meet unique customer needs, driving innovation and accelerating business growth."
