“

The Dallas Cosmetic Surgery and Medicine Meeting offers unprecedented opportunities for surgeons to enhance their skills and understanding of cosmetic surgery”

*Dr. Rod J. Rohrich*

Meeting Chair, Dr. Rod J. Rohrich, hosts the annual Dallas Cosmetic Surgery and Medicine Meeting, being held March 9th and 10th, 2023. This meeting, along with the Dallas Rhinoplasty Meeting taking place immediately afterwards, includes panel discussions, video feeds with expert commentary, live demonstrations, and a unique fresh cadaver dissection anatomy lab which gives participants direct hands on experience as well as direct interaction with the global experts.

The presentations are specifically delineated to give the participant only the latest and most innovative techniques and technology that work. These lectures are presented by the most highly experienced surgeons and providers who will cover the latest trends and offer expert guidance on advanced applications of cosmetic treatments with a special emphasis on evidence-based medicine. Both meetings are attended by surgeons from around the world.

"The movement toward evidence-based plastic surgery doesn't have a concrete end," explains meeting chairman, Dr. Rohrich." This is truly a change in the way we practice our profession - a change that sets the stage for continual advances and improvements, always with an awareness of our perpetual duty to assure the safety and satisfaction of our patients."

The annual meeting, which is open to board certified plastic surgeons, facial plastic surgeons, otolaryngologists, oculoplastic surgeons, dermatologists, residents, aestheticians and other non-physician providers, will focus on advances in topics such as aesthetic devices, advanced injection techniques, innovations in breast augmentation, [facelifts](#) and facial anatomy.

The second day of the meeting will highlight advances in cosmetic surgery including body contouring, buttock augmentation, and special topics in [eyelid surgery](#) and neck rejuvenation.

This meeting also features a unique element of the meeting, the cosmetic cadaver lab, which allows attendees hands-on participation and expert observation. This portion will be open to plastic surgeons, otolaryngologists, oculoplastic surgeons, and residents studying those medical specialties.

"The Dallas Cosmetic Surgery and Medicine Meeting offers unprecedented opportunities for surgeons to enhance their skills and understanding of cosmetic surgery," says Dr. Rohrich.

Those interested in attending can register at <https://dallasrhinoplastyandcosmeticmeeting.com/>

About Rod J. Rohrich, M.D., F.A.C.S.

Dr. Rod J. Rohrich is a board certified plastic surgeon in Dallas, Texas. He is considered one of the most influential surgeons in this century. He was named the top plastic surgeon in America by Newsweek in both rhinoplasty and facelift surgery in 2021 and 2022. Dr. Rohrich is a Clinical Professor of Plastic Surgery at Baylor College of Medicine. He was the first Chair of the Department of Plastic Surgery as well as the first plastic surgeon selected as a Distinguished Teaching Professor at UT Southwestern Medical Center. He graduated from Baylor College of Medicine with high honors, and completed his plastic surgery training at the University of Michigan Medical Center and fellowships at Massachusetts General Hospital/Harvard (hand/microsurgery) and Oxford University (pediatric plastic surgery). He is Chair of the Dallas Rhinoplasty Meeting, Founding Chair of the Dallas Cosmetic Surgery and Medicine Meeting, Founding Member of the Alliance in Reconstructive Surgery, and a Founding Partner of the Dallas Plastic Surgery Institute.

He is the immediate past (after serving for 18 years) past Editor-in-Chief of the most respected global peer reviewed plastic surgery journal – the Plastic and Reconstructive Surgery Journal. He is Founding Editor-in-Chief/Editor Emeritus of the first open access peer reviewed plastic surgery journal, PRS Global Open. Dr. Rohrich has published over 1000 peer reviewed articles and seven

textbooks in plastic surgery including a best-selling medical book entitled The Facial Danger Zones. Dr. Rohrich recently published an innovative cosmetic surgery video atlas, Cosmetic Surgery by the Masters.

Dr. Rohrich also served as president of the American Society of Plastic Surgeons (ASPS), the largest organization of board certified plastic surgeons in the world. He repeatedly has been selected by his peers as one of America's best doctors. He received the ASPS Special Achievement Award and on three occasions has received one of his profession's highest honors, the Plastic Surgery Foundation (PSF) Distinguished Service Award, which recognizes his contributions to education in plastic surgery. In addition, he has been recognized by the PSF with the Plastic Surgery Foundation Distinguished Career Researcher Award for his contributions to plastic surgery research and innovations. He is also the recipient of the ASPS 2022 Honorary Citation .
